

I Believe

I believe that smoking should be against the law.

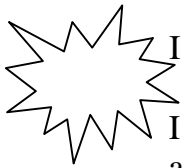

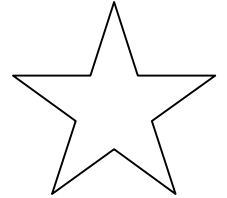

I believe that students should not have to wear school uniforms.

I believe that I do not believe in war.

I believe that we should not take tests in school.

I believe that we should make every car electric to stop pollution.

I believe that everybody should play a sport.

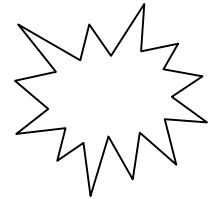

I believe that 6th grade should be in middle school in every school.

I believe that we should have pro-cheerleaders (just like pro basketball, football, and ext.)

I believe that everybody should be treated equally no matter how they look or what skin color they have.

I believe that I do not believe in child abuse.

I believe that we should be able to drive at age 13.

I believe in hugs not drugs.

I believe that we should stop advertising junk food and start advertising more healthy foods.

I believe that you should be able to get a job at age 10.

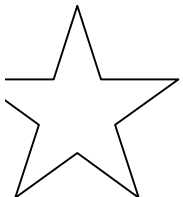

I believe that I do not believe in homework...it is like school at home, and we don't deserve that.

I believe that the government should make it easy to get free food when people can't afford it.

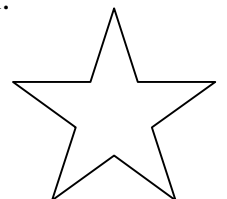

I believe that someday penguins, turkeys, and chickens will fly.

I believe that cheerleading is harder, tougher and more dangerous than football.

I believe I can fly.

I believe that someday soon we will find a cure for cancer.
